**Webster Financial Corp., Habitat for Humanity Team Up to Transform Hartford, CT Neighborhood**

A team from the Human Resources Department at Connecticut-based [Webster Financial Corp.](#) (NYSE: WBS) spent the day Sept. 15 volunteering at the 18th annual Hartford, CT Area Habitat for Humanity Build-a-Thon.

Webster was a platinum sponsor of the week-long building project, the biggest Hartford Habitat fundraiser of the year to aid the organization's ongoing efforts to eliminate substandard housing and make decent shelter a matter of conscience.

The event brought together individuals, faith groups and corporate volunteers to tackle the goal of constructing 16 safe, affordable homes on South Marshall Street in Hartford's Asylum Hill neighborhood.

"The HR team braved the wet mud and pouring rain to complete the build that day," said Denise Milde, senior vice president, human resources. "We were glad to do it for this neighborhood."

"A project like this not only improves neighborhood housing, it benefits the area as a whole, Milde said. "Being part of it is in keeping with Webster's commitment to give back to the communities we serve — and it was a great chance to build teamwork, as well."

Webster, whose corporate giving places an emphasis on supporting organizations that are engaged in transformative initiatives that enable individuals to take personal responsibility for their lives, is a long-time partner with Habitat for Humanity.

Congratulations Webster Financial Corporation!
